Property Description

The property is laid out over three floors which gives the possibility of using it as a family home or a small business. On the main floor, there are three large bedrooms (one is used as a formal lounge) all with views, a living room, a bathroom (with a window and underfloor heating), dining area and a fully-fitted kitchen with views to the mountains and sea. It leads onto a balcony, which takes you to the roof terrace. Here there is an additional room (sleeping area with a bathroom), which could be rented out, used by a separate family member with their own terrace. On the bottom floor, there is an additional unit which comprises a large kitchen, a shower room, a cave (which is used for storage), a dining-living room with a sleeping access to a terrace which leads to the garden and the other terraces. Again this could be rented out or used by a separate member of the family. The garden is full of fruit trees and plants and has easy maintenance due to the watering system. Above the garden is a large terrace which is currently used as an eating area with a barbecue and is next to a small sun-terrace. The property is full of light due to the many windows and is well cared for and sold furnished. Extras include central heating (radiators), water filter solar panel (for hot water), two stoves. This house must be viewed to understand its full potential.
